RESURFACING

The 2.2 miles of the East Road which was resurfaced with Tarvia last season was given a single application of Tarvia this season at a cost of $1,056.30, of which the State paid $704.20 and the town $352.10. About $150.00 has also been spent on this piece of road for materials and labor by way of ordinary maintenance.

DUST LAYING

A more general application of chloride was made this season including the heavier traveled village streets. Twenty-four and three-fourths tons of chloride paid for by Selectmen's order was carried over from last season. This was applied with about two tons more purchased later. A total of $694.53 was expended for this work; $300.00 of which was paid by the State and $394.53 by the town. Only two tons are being carried over this season. Road Commissioner's orders as reported cover only the labor costs of application and the later purchase of chloride.

UNSELECTED ROAD CONSTRUCTION

About one-fourth mile of the West Road, south of the Capron farm and continuing the work done last year, was regraded and resurfaced, using material taken from the bank near by, at a total cost of $374.85, of which the State paid $221.72 and the town $153.13.

MISCELLANEOUS

Several hard rains washed certain hills in town badly, causing a rather heavy maintenance expense. Repair and extensions to the storm sewer on South Street cost about $300.00. Approximately $300.00 was spent in improving Styles Street; about $550.00 was spent in resurfacing parts of Church, High, School Streets and small sections of other streets.

The balance of $646 30 carried over this year is represented by cash rather than by materials as in some other years.

The town has several hundred dollars invested in tools and equipment. We feel that some suitable place should be provided in which to house them.
